

IRONBOUND COMMUNITY CORPORATION EMPLOYMENT OPEN HOUSE

AeroFarms

The Future of Urban Agriculture

AeroFarms is a new start-up aeroponic urban farm located in Newark, New Jersey with plans to hire local residents for entry-level positions.

Aeroponics is a cutting-edge type of hydroponic technology that grows plants in a mist. The aeroponic mist provides roots with the nutrients, hydration and oxygen needed, creating faster growing cycles and more biomass than other growing approaches.

Ironbound Community Corporation invites you to attend the Employment Open House featuring AeroFarms.

Learn more about the AeroFarms company and explore the jobs that can make a breakthrough in your career development.

Opportunities are available for assemblers, quality technicians, electricians, and plumbers.

July 22nd, 2015

5PM - 7PM

ICC Early Learning Center

1 New York Avenue

Newark, New Jersey 07105

RSVP required, please contact:
